About Us

We established our organization under the name **Elpro Technologies** in the year **2007** as prime manufacturers, wholesalers, traders, retailers and suppliers of Software and Hardware Products. We have earned a reputation of performance with a unique range of manufactured products including Industrial PC, Fanless Computer, and Single Board Computer amongst an array of other products. We maintain stringent efforts to provide our clients with the best solutions while maintaining a standard for quality. Our unique lines of products ascertain a high rate of satisfaction on the grounds of performance and durability. We yearn to maintain fruitful business associations through constant perseverance and dedication.

Our organizational grounds have been established within an infrastructure of modern excellence. We have divided our campus based on segregated divisions pertaining to various tasks and responsibilities. Each division houses skilled employees who possess adept knowledge within the industry and know their work well. Our manufacturing division makes use of highly accurate machinery that, combined with modern software, renders our infallible range of products to completion. We maintain quality as well as performance for our clients to avail from and seek to maintain mutually prosperous business associations.
